Local Board discussion

Members of centres that are local board councillors make connection easier. President/GM not the only person that can advocate for Centre - all the members can through their own connections, or by doing submissions to annual plan feedback surveys. Changing personnel at Council and LB's makes it harder to keep up relationships. Centre personnel don't always have skills/time to do this extra relationship and advocacy work. A good relationship with the RST can help , plus invite local board members for coffee or to visit centre when netball in action - show them what netball is doing in their community

Jo - Netball Waitakere

Look at funding travel and accommodation for upcoming rep campaign. Funding for salaries. Our building is also in need of repairs and updates

Advice was around: good timing for rep travel , consider when you have to book and pay, choose quotes wisely as Must use those ie/ accom providers cannot change after the fact; What is the story we are telling to convince funders.....players experience and growth, connecting with peers across country when travelling, making life long friends equals long term involvement in sport. the healthy lifestyle messages rep players take back to their families, clubs,schools and peers. Funders may be Trillian, NZ Racing Board, - KARYNEROSS

Salaries have to look at NZCT, Lion, Oxford, Grass Roots - some are only funding 3 months - KARYNEROSS

What assistance do you need? Break Out Room 2

Wrapping Coaches/Managers around funding applications for participation. - ANONYMOUS

Advice on Tu Manawa - must be about participation first, cannot be coach heavy. Can weave coaching into application example was volunteer coach being mentored/taught by paid coach may fly with TM funders. TM have 3rd round opening soon but possibly last round for this year. - KARYNEROSS
